REIGN OF TERROR IN ERIN NEAR END

British Reported as Convinced Coercion Policy Is Failure

MILITARY ACTIVITY

Greenwood Confers With Premier Lloyd George—Ambassador to Discuss Situation.

London, Jan. 18.—A radical change in the Government's Irish policy, tending to end the reign of terror, is expected within a short time as a result of a week's series of conferences between Premier Lloyd George and Sir Hamar Greenwood, Chief Secretary for Ireland. Sir Hamar has been the guest of the Premier at Checquers and departed yesterday for Ireland.

That martial law and military coercion have failed to produce the desired effect is admitted even in quarters which were once the most optimistic. It is learned on the best authority that the Government now realizes two supremely important facts regarding Ireland, that military rule is driving the moderates to the extremists' camp and that the Sinn Fein will not work under the Home Rule act beyond contesting the elections in order to keep other parties from setting up a parliament. With this realization, for the first time, there is a real gleam of hope that the present terror will be brought to a close.

What form the new line of procedure will take is not clear at this moment, but indications point definitely to the clearing of Ireland of both sets of gunmen and that should clear the atmosphere to such an extent that settlements, now regarded as impossible, could be considered. Such a procedure would reconstitute the great body of moderate opinion which, in the last analysis, should accept the terms now rejected contemptuously by the extremists of both sides.

The impending return of Sir Auckland Geddes, Ambassador to the United States, may be of importance in this connection, as it has been announced that he is coming home to discuss with the Premier questions of Anglo-American policy, and the Irish problem is considered as one of those to be taken up.

Meantime military activity in Ireland is proceeding at full blast. The most extensive raid ever carried out by the Crown forces in Ireland, which was started Saturday night, ended last night.

Official quarters remain silent on the reasons for the unusual activity, and first reports in Dublin ascribed it to the desire to protect the court wherein John Murphy, of Cork, whose death sentence, commuted to Wednesday, was to be granted an appeal. However, Murphy, who is acused of participating in an ambush, was yesterday granted a reprieve to January 26, and hearing on his application for an appeal was postponed to January 24.

Other advices from Dublin say that leading Sinn Feiners are believed to have been the objects of the search, the names of De Valera and Collins being mentioned among others. Color is lent to this theory by the fact that only two unimportant arrests have been made on the raid thus far.

Six men were arrested this morning in connection with the attempt to set on fire the premises of the Vacuum Oil Company, at Wandsworth, last Saturday. The police allege that it is their belief one of the prisoners is the virtual leader of the so-called Sinn Fein terrorist gang in London. They assert, further, that a large collection of documents seized indicate the connection of the arrested men with the Sinn Fein movement.

Dublin, Jan. 18.—A detachment of soldiers from the Essex Regiment, says an announcement from general headquarters yesterday, surprised a party of men preparing an ambush at Timoleague, County Cork. There was an exchange of shots and 25 civilians were captured. The troops suffered no casualties.

Meeting Held Yesterday When Attorney is Named to Fight Fare Boost

The board of directors of the chamber of commerce held a largely attended meeting in the rooms of that organization yesterday afternoon at which time a number of matters of vital interests to the merchants of the city were taken up and discussed and tentative plans were made for putting these things into operation.

The directors also decided to employ legal counsel to fight the proposed increase in the fare between this city and Washington by the Washington-Virginia Railway Company. It is understood that Attorney James R. Caton will represent the Chamber of Commerce in its fight.

A committee was named to attend the state good roads convention which will be held in Roanoke, Va., next week.

Mass Meeting Friday To Protest Increase In Fare

Plans Completed For Gathering Of Citizens By Executive Committee Of Mount Vernon Division Of Commuters Association

TO STRENUOUSLY RESIST MOVE

Every Agency in City United Against Railway Company's Proposal—City Council, Chamber of Commerce and Citizens' Association to Join With Commuters in Fight—Every Commuter and Every Citizen Interested in Alexandria's Future Should Attend Friday's Meeting—All Women Also Urged to Attend.

Facts about fight to be launched against the Washington-Virginia Railway Company to prevent that company from increasing its fare:

Executive committee of the Mount Vernon Division Commuters' Association at a meeting last night arranged for a public mass meeting at 8 o'clock Friday night in the rooms of the Chamber of Commerce to arrange for protest. Everybody is invited, men and women.

Chamber of Commerce to employ legal counsel to assist the citizens in their fight.

Citizens' Association to meet at 8 o'clock Wednesday night at the Pythian Temple to protest against the move.

Acting Mayor F. F. Marbury issues call for special meeting of city council for 7.30 o'clock Wednesday night to take up the fight

Everybody urged to give their united support to the movement and Alexandria will win.

A public mass meeting to protest against the proposed increase in rates on the Washington-Virginia Railway line will be held at 8 o'clock Friday night in the auditorium of the Chamber of Commerce. Arrangements for the meeting were completed by the executive committee of the Mount Vernon Division Commuters' Association at a meeting held last night in the rooms of the Chamber of Commerce presided over by D. K. Stansbury, president and Robert W. Zachary secretary.

It was explained that at the mass meeting arrangements will be made to increase the membership of the commuters' association and also to complete the plans for the fight to be made before the Interstate Commerce Commission against putting into operation the proposed increase in rate.

Capt. G. H. Evans, business manager of the Chamber of Commerce, announced that the Chamber of Commerce at its meeting held that afternoon it had decided to employ legal counsel and fight the proposition and would join with the commuters in their fight before the Interstate Commerce Commission.

The executive committee had just passed a resolution asking the Mayor to call a special meeting of city council to lend its support to the movement. A few minutes after ward Acting Mayor F. F. Marbury appeared and anncunced that he had issued a call for a special meeting at 7:30 o'clock Wednesday night.

Word was received from the Citizens' Association that they will hold a meeting at 8 o'clock Wednesday night in the Pythian Temple and appoint committees and make other arrangements to fight the proposed increase in fare.

Announcement also was made that the colored commuters of the city will give financial aid to the movement launched for the employment of legal counsel to resist the movement.

It was clearly demonstrated from the addresses of those present at the executive committee of the commuters that the people are weary of the electric railway in their efforts to boost fare when everything else is on the downward scale and every ounce of energy possessed by the various agencies will be pitted against the owners of this line to combat the movement which it was declared would prove a death blow to Alexandria were it put into operation.

Several of those present intimated that should the railway company increase the rate they would be compelled to leave the city and the concensus of opinion was that it would retard the growth of Alexandria. In other words the move on the part of this road to raise the fare is the biggest menace Alexandria ever before has been confronted with. Thousands of dollars earned by Alexandrians which are brought here and spent with our merchants and real estate men would be diverted to Washington as many of these people would move to Washington before they would be willing to pay the electric railway company forty-eight cents for a round trip.

After the meeting had been called and its purpose explained by President Stansbury a few of the details necessary incident to presenting a memorial protesting against the raise to the Interstate Commerce Commission.

F. C. Goodnow, of the Goodnow Real Estate Company, told of the detrimental effect the increase would have on suburban property. His company he said already has erected many homes in Rosemont and north of that place and has under way a campaign for additional houses in the spring. Should the increase become effective he said it would abandon its plans. Many persons from Washington he said are buying homes in Rosemont and elsewhere, attracted by rasonable car fare and reasonable real estate values. He asserted they would not come here with such car fare and added that many persons who have purchased homes on the partial payment plan would sacrifice them and go to Washington.

On motion of F. J. Paff a committee of three from the commuters will meet similar committees from the chamber of commerce and Citizens' Association and confer on plans. This will be in the form of a steering committee.

Those named on this committee are F. J. Paff, T. Clifton Howard and D. R. Stansbury. Ashby Bladen and others commended the Gazette for its stand taken to defeat the road in its efforts to boost the fare.

Every man, woman and child who patronizes the electric line should attend Friday's meeting and also every business man in the city.

All citizens whether members of other organization or not, are invited to attend this meeting. With teh co-operation of all citizens we should be in a position to convince the Interstate Commerce Commission that this road is not entitled to any increase, but if any thing a reduction.

We urge all citizens to attend this meeting, as we are now in communication with other Citizens' Association, at Clarendon and Arlington County, and have been assured their co-operation.

"I want permission to carry a gun" was the frank declaration made by Charles Ford, colored, to Chief of Police C. T. Goods when he entered police headquarters shortly after 10 o'clock this morning. The police informed Ford that they were not permitted to issue such permits, but they promised to investigate the case of the man who had threatened Ford's life. Ford says he had no desire to die just yet.

175,000 FIXED AS SIZE OF THE ARMY

Is Expected to Save Government About $40,000,000 a Year

SENATE REVERSES

House Almost Unanimous on Resolution—Japanese Question Debated—Borah Gives Views.

Washington, Jan. 18.—The size of the regular army was definitely fixed by both houses of Congress yesterday at 175,000 men. By a vote of 41 to 33 the Senate reversed its action of Friday reducing the strength of the army to 150,000 men and repassed the resolution directing the Secretary of War to suspend enlistments until a reduction to 175,000 men was accomplished.

A few minutes later the House by an almost unanimous vote adopted a similar resolution. Each provided that the 175,000 limit should not prevent the re-enlistment of men who have served one or more enlistments in the military service. The language of the two measures, however, differ somewhat and either the Senate or the House will send its resolution to conference for rearrangement. Action by the joint conference committee of the two houses is expected to be taken speedily and the resultant measure sent to the President.

The measure is expected to save the Government approximately $40,000,000 a year. The size of the army is about 224,000 men, according to Secretary Baker. Under the measure it will reach the 175,000 minimum about September.

The Senate's change of mind was influenced largely by testimony of Secretary of War Baker and General Pershing before the Military Affairs Committee and by telegrams of protest against reduction of the army to 150,000 men. Mr. Baker considered the reduction to 150,000 would be destructive to the basic plans of army organization and General Pershing thought it would be unsafe to go below 200,000 men.

Much of the debate yesterday revolved about the Japanese question. Senator Reed, of Missouri and Senator Williams, of Mississippi, beliefed the "yellow peril," while Senator Phelan, of California, warned the Senate that the necessity for large garrisons in Pacific possessions was greater now than during the war. Senator Reed said Japan would never dare to attack the United States without the aid of Great Britain.

"And if there is any danger of that," he said, "this measure for 175,000 men is useless; we should begin preparing for war on a scale never before seen in this country."

Senator Borah, of Idaho, charged that the purpose of maintaining a large standing army was to use it for policing purposes in the United States, which he declared, would increase discontent.

"No one," he said, "would think of reducing the size of the army if there was danger of war with another power, but I am utterly opposed to maintaining an army of 175,000 to keep peace in the United States.

The only votes against the proposal in the House were by Bee, of Texas; Blackmon, of Alabama Condy, of Maryland, and Cramton, of Michigan. There were 285 votes for the limitation.

Chairman Wadsworth, of the Senate Military Committee, made an unsuccessful effort yesterday to bring up the bill re-establishing the grade of lieutenant-general in the army and authorizing the President to appoint three general officers to that grade. Objection was offered by Senators France, Republican, Maryland, and Robinson, Democrat, Arkansas.

Senator France said he did not desire to "reward generals while nothing is being done for the thousands of sick and wounded soldiers not in army hospitals."

AD MEN'S CLUB. There is a movement on foot to organize an Ad Men's Club in Alexandria, on similar lines to those existing in nearly every city in the United States. The GAZETTE welcomes the plan and offers the use of its comfortable editorial office to the new organization, with heat and light. It also tenders the services of the bright young men of its advertising staff in the matter of advice and discussion of all the problems that pertain to the Art of Advertising—and they are many. Among the matters that might be taken up are the subjects of Washington competition, better display ads, the text of an advertisement and how it should be written, advertisements that pull trade, that create confidence, etc., etc. We are possessed of absolute confidence in the wisdom of the idea, and foresee in its installation great benefit to the merchants and their patrons. We understand that there will be no initiation fee or dues, and that everyone buying, selling, or consuming goods, is eligible.

SOUTH'S PROSPERITY. The rapid development of the South is a matter for congratulation among all its citizens. While the rate of growth for the whole country is about 15 per cent, several of the southern states exceed this substantially. If the present increase in material development continues, it may not be too much to hope that sometime in the near future the old equilibrium that existed in the early days of the Republic may be restored How few now know, that at the first national census Virginia was the most populous American state? That North Carolina had more people than New York? These two great states maintained their status until about 1820, when the northern states began to forge ahead. The civil war, of course, destroyed the economic development south of Mason and Dixon's line, and retarded for years the natural progress that otherwise would have taken place But the South's natural advantages, its mineral wealth its superb timber resources, its agricultural possibilities its unrivalled water-power, its industrial activities, its beneficent climate, and above all, the high character and personality of its conservative citizenship—than which there is no finer in the world—will, we believe again bring the southland into its own, and shower the blessings of prosperity and enlightenment over a thrice-happy and contented people.

ALEXANDRIA'S FIGHTING BLOOD AROUSED.

The Executive Committee of the Mount Vernon Commuters' Association held a rousing meeting last night at the Chamber of Commerce anent the proposed increase in fares on the Washington-Virginia Railroad. By courtesy of the committee many other citizens of Alexandria and neighboring suburbs were present. It is evident that Alexandria's fighting blood is aroused and the spirit evinced at the meeting presages a sure victory.

All of the suggestions embodied in yesterday's GAZETTE were unanimously endorsed. The Chamber of Commerce at its directors' meeting early yesterday afternoon, under the effective leadership of its president, Hon. J. Y. Williams, took energetic action in a resolution authorizing employment of legal counsel to represent that body and the citizens before the Interstate Commerce Commission. The Citizen's Association meet at the Pythian Tempie tomorrow night at 8 o'clock to organize auxiliary opposition. Acting Mayor Marbury has called a special meeting of the City Council, also tomorrow night, to take action on the proposed increase of fares. Thus, all the civic bodies are astir, and the aroused masses of the public are backing them to the limit.

The GAZETTE has been examining the various ordinances and franchise pertaining to the Railway Company. It makes mighty interesting reading, in view of the present ill-advised move on the part of the latter to raise rates to an extortionate figure. We reserve comment for the present, but can promise some interesting developments later, should it become necessary.

A pertinent enquiry just now, is, why does the Railway Company want to raise rates at this particular time? Are they losing money on the present schedule of fares? We have reliable information to the effect that they are actually making more than a reasonable profit. Their property is administered under the guidance of perhaps the leading firm of advisory engineers in the United States, in New York. This firm has placed, we are told, one of their best constructive managers, a man of vast and successful experience in the building up and maintenance of electric trolley lines. He has already demonstrated his ability and brought order out of confusion, and is making the road a money-payer. Two things the citizens will not stand for: first, for previous mismanagement and extravagance; second, for an unhealthy watering of stock, exorbitant distribution of bonuses among promoters, or bond-issues that might have been avoided under prudent management. We do not make these charges, now. An expert auditor's examination of the company's affairs, however, is in order, that the citizens in whose sole interest the franchise was granted may determine just what bug is under what chip.

We believe that investigation will show that the primary motive of the Railway Company in going before the Interstate Commerce Commission is a very common trait in human nature that owes its origin to selfishness. The company thought the time was ripe and the citizens would fall for it. But the gentlemen from New York, Philadelphia and other northern cities that wax fat on interest-bearing securities constituting a burden on their less fortunate brethren, did not know the temper of the real Virginian. He has been at the front in every war from the days of Braddock, saved from annihilation by a young Virginian named Washington, down to the recent world war, where the sons of Virginia fought nobly on Flanders fields ond sustained all the heroic traditions of their illustrious ancestors.

The GAZETTE is in this fight to the finish. As the oldest daily newspaper in the country, it also has traditions to maintain. It has never shirked a duty or shunned a fight. This policy is bred in the bone, and we are as proud of our unstained record as of our antiquity. We congratulate the citizens on their stand and promise them our undivided allegiance and support. More tomorrow!

UNIVERSITY OF VIRGINIA MEDICAL SCHOOL. The proper location of the state-supported medical school is unquestionably at the seat of the University of Virginia. Fourteen of the leading American Universities have taken this view, and their success is an unanswerable argument. The best educational thought of the country trends also in this direction. By all means, put the state medical school with our great and beneficent State University.

United States Has 18-Months' Food Supply Hoarded, Declares Hoover

Indianapolis, Ind., Jan. 18.—The United States has enough food stored away to keep the nation from starving for eighteen months, even though none is produced in the meantime, Herbert Hoover, chairman of the European Relief Council, declared yesterday at a luncheon given by that organization for the benefit of 3,500,000 starving children in Europe.

The luncheon was unique in that, while the diners willingly gave $100 a plate for it, it consisted of black bread, stewed rice and cocoa, the principal articles of subsistence in the countries where inhabitants are starving by thousands. It was estimated that approximately $75,000 would be added to the relief fund before Mr. Hoover leaves.

With this enormous surplus of food in this country, and starvation threatening millions a few thousands miles away, Mr. Hoover declared, a weak link exists somewhere in the social or political system of the world as a whole.

Any hunger or cold existing in this country, he continued, is due to foolish functioning of either our social, economic or political system.

"It is reported to me that there is a great deal of gloom over the United States as the result of falling prices and the decrease in employment," Mr. Hoover said. "While I am not saying this to minimize the anxieties of any individual, despite this we should be the most cheerful country in the world. We do not deserve the name of intelligent men if we cannot overcome this self-made handicap at home and still do our duty abroad. No one in the United States has any ground for despondency."

K. OF C. INDORSES HOOVER'S RELIEF

New York, Jan. 18.—In answer to appeals from Central Europe coming from various societies and dignitaries there the Knights of Columbus, through the head of the organization, James A. Flaherty, of Philadelphia, have replied that the Catholics of America are giving their full support to Herbert Hoover's European Relief Council.

Cardinal Gibbons and many other archbishops and bishops of the Catholic Church in the United States, have given their endorsement to the Hoover campaign.

"I have asked every one of the 2,000 Knights of Columbus councils to entertain invisible guests," said Supreme Knight Flaherty, "and the K. of C. are able to report that the Catholics of America joining hands with members of all the Protestant denominations, are rallying to the support of the suffering children of Europe, many of which are Catholics.

"The Knights of Columbus do not at this time regard with favor any money campaign that tends to interfere with the work that Herbert Hoover's European Relief Council is accomplishing. We feel that all European child-feeding work should be done under Herbert Hoover's expert leadership."

Meridian, Miss., Jan. 18.—Negro bootleggers and moonshiners were suspected yesterday of being the slayers of Judge Moody Price, former United States commissioner for the eastern district of Mississippi last Friday morning.

Police were told that the Judge had been drinking. He had about $200 in his pocket Thursday, it was reported, and it is believed by officials that he was slain for the money.

U. S. Course Mapped Out, Declares Banker

Charles H. Sabin, president of the Guarantee Trust Company of New York, last night denounced the Excess Profits tax and other forms of inflated price taxations as being antiquated and placing an unnecessary burden on the progress of the country.

Mr. Sabin's shafts, which were also leveled at Congress for failure to enact tax revisions when the day of need for such, he declared, has long been here, were delivered in the course of an address wherein he summarized the lessons 1920 has taught the country and indicated the way America must go in 1921 to secure abundant and lasting prosperity.

A difficulty to be removed he suggested is the present taxation system whereby revenue raising is altogether too much dependent upon income and profits seeking much revenue without regard to its effect on business.

He said 1920 has demonstrated by service rendered the need of aiding the railroads.

HARDING NOT TO ATTEND BALL AFTER INAUGURAL

Washington, an. 18.—President-elect and Mrs. Harding have declined an invitation to attend a charity ball to be held here March 4, as a substitute for the discarded inaugural ball.

The committee in charge announced yesterday that Mr. Harding had replied that he could not with propriety attend a ball of any sort at the time, in view of the opinions he had already expressed against holding an inaugural ball. The charity ball plan will not be abandoned, however, it was added.

Holland Reported As Anxious to Oust Kaiser and Prince

Berlin, Jan. 18.—The Tageblatt's Vienna correspondent gives an unnamed authority in Vienna in confirmation of a report that the Dutch government has expressed the wish that the former German emperor and former German crown prince leave Holland. Veterans Must Pay Tax on all Disability Revenue

Washington, Jan. 18.—Unmarried war veterans must return to the Government as income tax 4 per cent, of any disability payments they receive in excess of $1,000 a year.

The Treasury Department ruled yesterday that it could not under the law exempt such former service men, although those still in the service are required to pay only on amounts in excess of $3,500 a year. War risk insurance payments, however, are now taxable.

VAMPIRE CAUGHT

Chicago Police Arrest Southern Beauty—Blames Bad Company And Drink for Downfall

Chicago, Jan. 18.—Chicago's "politeness vampire", the beautiful blonde "lure" who is accused of leading more than 50 men to vacant flats or lonely hallways where they were robbed, fell into the clutches of the police yesterday. Her husband and his companion were picked up Saturday night.

She is Mrs. Cleopatra McCarey Brown Huntsman, of Wichita Falls, Texas, and she says her downfall is due to bad companions and whisky.

"I am the woman you want," she said. "But I'm not wholly bad. It was the company I was in—and drink—not for myself, but for my husband."

A man, said by the police to be Eddie Kelley and a member of a gang of five robbers who held up the Bedford (Ind.) State Bank last October, escaping with $68,000, after a revolver fight with citizens, was arrested in a hospital here yesterday.

The police say also Kelley was a member of a gang of roboers who stole $12,500 from the Ridgeville (Ind.) Bank last month.

Detroit, Mich., Jan. 18.—A ruling by the United States Treasury Department at Washington that manufacturers of home-brewed beer are subject to a penalty of $1,000 was received yesterday by John A. Early Freedom For Philippines, Says Governor

Manila, Jan. 18.—Governor Burton H. Harrison, who is to leave for the United States on March 27 via Europe, delivered a speech to the Columbian Association of Young Filipinos, in which he said he had urged acceptance of his resignation and the appointment of Manuel Quezon on the Secretary of War eighteen months ago.

He expressed regret that he was not to be the last American Governor, predicted early independence and declared he had adhered to his principles despite their unpopularity with his countrymen.

Manuel Quezon, President of the Senate, said the Filipinos wanted American protection against external aggression and internal revolution and in return would give a military and naval base, free trade and full protection of American rights, including political rights, on the same basis of the Filipinos.

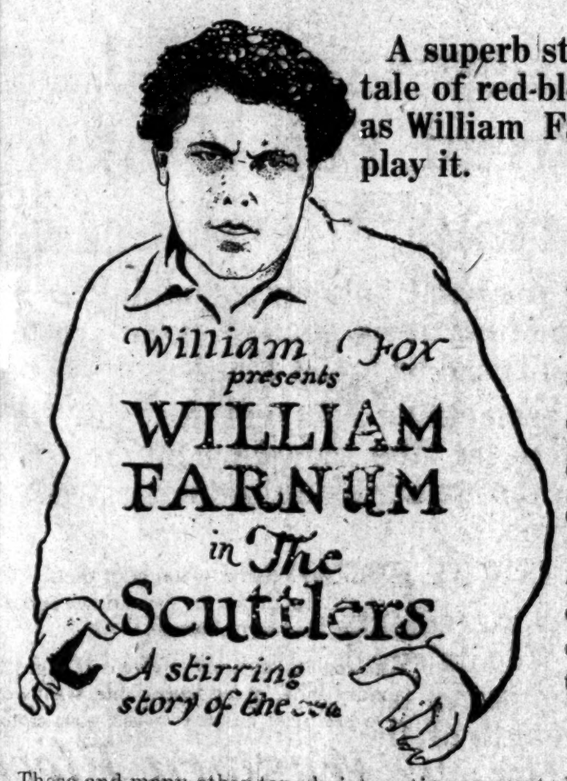
RICHMOND



A superb story of the deep-a tale of red-blooded men played as William Farnum alone can play it.

The story of a detective who allows himself to be shanghaied in order to get evidence against a crooked skipper.

And how a terrific battle ensues when the sleuth discovers the mate scuttling the ship.

These and many other tensely interesting moments help make this one of the biggest pictures seen here in many weeks. Don't fail to see.

KISSES BRING DIVORCE AFTER WIFE HEARS 'EM

Atlantic City, Jan. 18.—Kisses of volcanic warmth and several minutes' duration, together with prudent love letters, comprised evidence submitted by Mrs. Ruby N. Hawn, 218 North Morris Avenue, Chelsea, in the action she brought to secure a divorce from her husband, David L. Hawn, formerly of 2315 Albine place, Philadelphia. Special Advisory Master Joseph Thompson has recommended a decree for the wife.

Miss Gertrude Desmond, a school teacher in one of the public schools here, was named as the co-respondent. Mrs. Hawn and detectives told of "shadowing" her husband to an apartment where, they testified, they heard loud smacks, and, peering through a window, saw Hawn and the school teacher with their arms around each other.

Mr. and Mrs. Hawn were married in Philadelphia in 1906. Hawn, who is now said to be living in Bridgeton, made no defense to the suit. The custody of a daughter is given to the mother.

Star is Breaking All Known Speed Records

Cambridge, Mass., Jan. 18.—The nebula dreyer, No. 451 in the constellation of Cetus, has broken all known speed records of the heavens.

It is dashing through space away from the earth at a velocity of almost 1,250 miles a second, the highest speed ever attained by a celestial object.

This was the word received at the Harvard College observatory yesterday from Dr. V. M. Slipher, of the Lowell observatory, Flagstaff, Ariz., announcing the results of spectrographic observations there.

MOTHER'S PATHETIC TALE SOFTENS LANDLORD'S HEART

New York, Jan. 18.—A family's destitution, as described in Bronx Court yesterday by the mother of 8 children softened the heart of a New York landlord. Mrs. John Justus was defendant in a landlord tenant case and was asked why she had not paid her rent for two months.

"My husband is crippled and unable to work. His pay recently was cut 10 per cent. It takes everything we can scrape together to care for the children. I just cannot pay."

Morris Polsky, her landlord, interrupted. He requested the court's permission to take up a collection. The court answered by dropping $5 in Polsky's hat. Other spectators were generous.

Mrs. Justus rent is paid a month in advance.

DEMOCRATS GIVE CANE TO THE PRESIDENT

Washington, Jan. 18.—A walking stick made from wood cut out of the heart of a native Bois d'Arc tree planted in Texas in 1870, was presented to President Wilson yesterday by Representative Parrish, of Texas, on behalf of the Democrats of Wise county, Texas.

The stick, of a light golden brown with a silver head, bore the inscription: "Presented by the Democrats of Wise county, Texas, as an indorsement of your stand on the League of Nations."

The President received Mr. Parrish seated in the White House study and after remarking on the beauty of the gift, said he would treasure it not only on that account, but also because of the sentiment expressed by those who gave it.

Besides the cane, the President also was given a photograph of Sam Woody, described by Representative Parrish as 94 years of age, the oldest loyal Democrat of Wise county.

After leaving the White House Mr. Parrish described the President as in excellent spirits and as showing plainly great improvement in health.

MURDER OF NAVAL NURSE STILL BAFFLES OFFICIALS

Annapolis, Md., Jan. 18.—The Naval Board of Inquiry investigating the murder of Harriet M. Kavanaugh, nurse at the Naval Hospital, was no nearer to a solution last night than at any time since the brutal attack on Friday evening, according to an announcement here. Thus far, the authorities have discovered only two clues which may lead them to some explanation of the tragedy. One is a button found in Miss Kavanaugh's hand when she was picked up and may have been torn from her assailant's coat. The other is a silver pencil, which was the cause of the nurse's visit to the city on Friday night, and which is believed to be in possession of the murderer.

The negro deserter, Harry Brown, and Albert Mills, a white youth, who were arrested in connection with the case, were released yesterday, as there was no evidence to connect them with the murder. Other reports and rumors have been run down but none has served to shed any light upon the tragedy.

NAVY PLANS TO HURL PLANE FROM CATAPULT

Washington, Jan. 18.—Naval air planes, instead of "taking off" from the decks of ships while at sea, will be hurled from catapults if experiments of the Navy Department prove successful, the House Naval Committee was told yesterday by Captain T. T. Craven, director of naval aviation. Tests are being made, he said, at the Washington Navy Yard, where it is planned to shot a seaplane from a catapult soon to see if the plan is feasible.

Captain Craven said he was convinced the new method would prove superior to present attempts to get under way from decks, limited in size.

What Bread You Eat is a very Important Consideration.

In choosing you want to know something about what it is made of---and how it is made. Both are factors in making it good bread or bread that is not so good.

Bread isn't something you eat just to "fill up." It should be eaten for the nourishment it gives---and it should contain those nourishing properties---developed to the fullest degree.

That is why CORBY BREAD is superior.

We select our ingredients with the greatest care---for their purity. We mix our doughs by our own patented process, which insures the 100 percent development of the gluten strength of the flour---and there is no other known method for attaining to that maximum. And then ---for "good measure"---we put in most unusual quantities of rich milk.

Therefore CORBY BREAD supplies the highest percentage of nutrition---combined in ratio that makes it well-nigh the perfectly balanced food ration.

That's the kind of Bread you should give the kiddies--- and you wont have to coax them to eat Corby Bread--- they like it.

Made right here in Alexandria, and delivered fresh from our ovens to your grocer and delicatessen.

Pure as Mother Made It.
